EXPLANATION OF RELEVANCE

References AA, AB, AD, and AE were cited in a corresponding German Patent Office Action, mailed November 2, 2006. References AA and AB are U.S. patent documents that are in English, so no further commentary on their teaching is required.

Reference AD and AE are German-language European patent documents. Reference AC is a U.S. patent corresponding to reference AE. An English-language Derwent abstract has been provided for reference AD, and a full translation will be produced at the request of the Examiner.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above related art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
